RE Aramid Gel™

RE Aramid Gel reinforces cast fibrous plaster panels in suspended ceiling systems. Contains DuPont™ Kevlar®. Ideal for rebuilding damage cast plaster ceiling panels and establishing new structural support hooks without causing surface damage.

From 5 gallon/19L pail: use a Graco TexSpray RTX 1500 Professional Texture Sprayer or equivalent.

From 30 oz/800mL cartridge: use a special atomizer tip air caulking gun – available from HPCS.

Apply RE Aramid Gel™ evenly across plaster surfaces with a series of horizontal and vertical passes to a minimum thickness of 1.58mm (.0625”).

Recommended coverage:

Approx. 150 sq. ft per 5 gallon/19L pail

Approx. 8 sq. ft. per 30 oz/800 ml cartridge
